

S.5 ECONOMICS HOLIDAY WORK

Instructions

Answer All the Items

ITEM ONE:

People Jane and Marry have been buying rice each 20 tons at UGX 5000 per kg, but of recent Jane has reduced what she buys to 10 tons of rice while Marry increased what she is buying to 30 tons of rice. Surprisingly price has remained constant.

Task

- a) Graphically represent the above information
- b) Explain the reasons for the increase in rice bought by Marry from 20 tons to 30 tons

ITEM TWO:

The school of Greenhill academy has a farm where it grows maize at it has 20 workers who used to produce very low output and of poor quality. Of recent, the school also changed the way it handles its staff and many things changed around the farm. The school is very pleased with the performance of its staff.

Task:

Assess the factors that are responsible for the increase in output and quality produced by the workers of the school.
